Appendix 2

Review of the work program (syllabus)

Parameter by which the work program (syllabus) of the educational component is evaluated	**Yes**	**No**	**Comment**
General information about the educational component is sufficient			
Learning outcomes for the educational component correspond to the NQF			
The learning outcomes for the educational component correspond to the stipulated PNR (for mandatory OKs)			
Learning outcomes for the educational component make it possible to measure and assess the level of their achievement			

Learning outcomes relate to student competencies, not the content of the discipline (contain knowledge, skills, abilities, not the topics of the discipline curriculum)			
Learning activity (teaching and learning methods) enables students to achieve expected learning outcomes			
The educational component involves learning through research			
The assessment strategy within the educational component is in line with the University/Faculty policy.			
The provided assessment methods allow assessing the degree of achievement of learning outcomes by educational component.			
The student workload is adequate to the volume of the educational component.			
Recommended learning resources are sufficient to achieve learning outcomes			
The literature is relevant
