### **9. Methods of study**

1. Methods of learning source of knowledge:
  - 1.1. Verbal: story, explanation, conversation (heuristic and reproductive), lecture, briefing, summarizing, making tables, graphs, supporting lecture notes and so on.
  - 1.2. Visual: demonstration, illustration, observation.
  - 1.3. Practical: practical work, exercise.
2. Methods of studying the nature of logic knowledge.
  - 2.1. Analytic
  - 2.2. Synthesis
  - 2.3. Inductive method
3. Methods of studying the nature and level of independent intellectual activity of students.
  - 3.1. Problem (problem-information)
  - 3.2. Part-search (heuristic)
  - 3.3. Exploratory
  - 3.4. Reproductive
  - 3.5. Explanatory, demonstrative
4. Active learning methods - brainstorming, solving crosswords, competitions, debates, round tables, business games, training, use of problematic situations, tours, group study, self knowledge, simulation methods of learning, training and supervising of tests, the use of basic lectures )
5. Interactive learning technologies - use of multimedia technologies, spreadsheets, case-study, kahoot, learning dialogue, cooperation Students (cooperation).

### **10. Methods of evaluation**

- 1 Rating control a 100-point scale assessment ECTS
2. Implementation of the interim control during the semester (intermediate certification)
3. Polikryterial assessment of the current work of students:
  - The level of knowledge demonstrated in practical laboratory work;
  - Activity when discussing issues submitted to school;
  - Express control during practical classes;
  - Self study topics in general or specific issues;
  - Implementation of analytical and computational tasks;
  - Writing papers, essays, reports;
  - The results of testing;
  - Writing assignments during the tests;
  - Industrial situations, case studies and more.
4. Direct incorporation in the final assessment of student performance of certain individual tasks:
  - Educational and practical study of the presentation of results and more.

### 11. Distribution points that get students

Routine testing and independent work			Total for modules and Individual task	Certification	Final test - exam	Amount
Module 1 - 20 points	Module 2 - 20 points	Individual work				
Content module 1	Content module 2					
20	20	15	55 (40+15)	15	30	100

### Evaluation (points, ECTS, national)

Total points	ECTS	National rating	
		Exams, term paper, practice	credit
90 – 100	<b>A</b>	Excellent	passing
82-89	<b>B</b>	Good	
75-81	<b>C</b>		
69-74	<b>D</b>		
60-68	<b>E</b>	Satisfactory	
35-59	<b>FX</b>	Unsatisfactory	Not passing, but can have second attempt
1-34	<b>F</b>	Poor	Not passing, need additional training
