

Public Management and Administration Department
Faculty of Economics and Management

MODULE SYLLABUS

Agrarian policy

(selective)

Area of specialization	C 1 Social and behavioral sciences
Academic Program	“Local Economic Development ”
Level of higher education	At the second (master's)

Information on reviewing the work program (syllabus)

Academic year in which changes are made	The number of the appendix to the work program with a description of the changes	The changes have been reviewed and approved		
		Date and number of the minutes of the meeting of the department	Head of Department	Guarantor of the educational program

1. GENERAL INFORMATION ABOUT THE EDUCATIONAL COMPONENT

1.	Title	Agrarian policy		
2.	Faculty/Department	Economics and Management / Public Administration		
3.	Type (compulsory or optional)	compulsory		
4.	Program(s) to which module is attached (to be filled in for compulsory types)	-		
5.	Module can be suggested for (to be filled in for optional types)	EP «Local Economic Development” C 1 Social and behavioral sciences.		
6.	Semester and duration of module	2, 1-15 weeks		
7.	ECTS credits number	5		
8.	Total workload and time allotment	Directed study		Self-directed study
		Lectures	Practical	Labs
		30	30	-
9.	Language of instruction	English		
10.	Module leader	Olena SLAVKOVA, Dr. Professor, Head of Public Management and Administration Department		
11.	Module leader contact information	Email: olena.slavkova.snau@gmail.com SNAU, building of the Faculty of Economics and Management, aud. 310 e

Topic 12. State regulation of the agro-industrial complex. 1. System of measures of state regulation of agriculture. 2. State regulation of agro-food markets. 3. The consequences of state intervention in agricultural production and the task of analyzing the state's agrarian policy.	2	2	5	B (1-6) A (1-10)
Topic 13. Economic consequences of the application of certain instruments of regulation of the domestic agrarian sector. 1. Classification of agricultural production regulation tools. 2. Price policy on the agro-food market: tasks and main tools. 3. Formation of the pricing system in the agro-industrial complex of Ukraine. 4. Regulation of the markets of production resources used in agricultural production.	2	2	9	B (1-6) A (1-10)
Topic 14. Development of the agricultural sector of Ukraine in the context of globalization of world markets 1. Problems of development of the agricultural sector of the economy in the context of globalization of world markets. 2. Foreign trade prospects of the agri-food sector of Ukraine. Agrarian structural policy. 3. The essence and objectives of the state's foreign trade policy in the agricultural sector.	2	2	9	B (1-6) A (1-10)
Topic 15. Instruments for regulating foreign trade in agricultural sector products. 1. Modeling of the agrarian policy of Ukraine. 2. Regulation of world agri-food trade within the framework of the WTO. 3. Basic approaches to assessing state support for the agrarian sector	2	2	4	B (1-6) A (1-10)
Total	30	30	90	

4. TEACHING AND LEARNING METHODS

MLOs	Teaching methods (work to be carried out by the teacher during classes, consultations)	Teaching methods (what types of educational activities the student must perform independently)
DRN1: After studying the educational component, the student is expected to be able to understand the basic concepts and categories of agrarian policy, as well as the issues it explores	Lecture, practical lesson, discussion,	Elaboration of theoretical material
DRN2: After studying the educational component, the student is expected to know the theoretical and methodological foundations of the agrarian policy of the state and individual countries, the socio-economic state of agricultural production at the current stage	Lecture, practical lesson, discussion, debate	Elaboration of theoretical material,
DRN3: After studying the educational component, the student is expected to know the legislative and regulatory acts that regulate the development of the agricultural sector and be able to apply them in practical activities	Lecture, practical lesson, discussion, debate	Elaboration of theoretical material, performance of calculation tasks,
DRN4: After studying the educational component, the student is expected to be able to evaluate the markets of food, works, services, resources, labor and land and their impact on the socio-economic development and food security of the country	Lecture, practical lesson, discussion	Elaboration of theoretical material, performance of calculation tasks
DRN5: After studying the educational component, the student is expected to be able to identify the problems of sustainable development of rural areas and develop methods to overcome them	Lecture, practical lesson, discussion	Elaboration of theoretical material, performance of calculation tasks
DRN6: After studying the educational component, the student is expected to know the tools of regulation of the agricultural sector and the economic consequences of their application	Lecture, practical lesson, discussion	Elaboration of theoretical material, performance of calculation tasks
DRN7: After studying the educational component, the student is expected to know the main approaches to assessing the level of state support for the agricultural sector of the economy, the tools of state regulation of foreign trade in agricultural products.	Lecture, practical lesson, discussion	Elaboration of theoretical material, performance of calculation tasks

5. ASSESSMENT

5.1.1. To assess the expected learning outcomes provided

№	Methods of summative evaluation	Points / Weight in the overall score	Date of compilation
1.	Individual work (individual calculation task, presentation)	10/10%	Until the 7th week
2.	Individual work (individual calculation task, presentation)	10/10%	Up to 13 weeks
3	Testing	80/80%	During the semestr

5.1.2. Evaluation criteria

Component	Unsatisfactorily	Satisfactorily	Fine	Perfectly
Essay	<5 points	5-6	7-8	9-10
	<i>The task is not completed.</i>	<i>The execution method is correct, but there are significant errors.</i>	<i>The task is completed, but there are minor errors.</i>	<i>The task is completely completed. There are no errors</i>
Individual work	<5 points	5-6	7-8	9-10
	<i>The task is not completed.</i>	<i>The execution method is correct, but there are significant errors.</i>	<i>The task is completed, but there are minor errors.</i>	<i>The task is completely completed. There are no errors</i>

5. 2. Summative assessment:

To assess current learning progress and understand areas for further improvement

№	Elements of formative assessment	Date
1	Testing in (Kahoot)	At the end of each topic
2	Filling in self-assessment information	At the end of the relevant topic
3	Verbal feedback from the teacher during the performance of an individual task	During the performance of an individual task

5.3. Assessment scale operating at the University:

The sum of points for all types of educational activities	Score on a national scale	
	For exam, course project (work), practice, qualification work	for offset
90 - 100	perfectly	credited
82-89	fine	
75-81		
69-74	satisfactorily	
60-68		

35-59	unsatisfactory with the possibility of reassembly	not credited with the possibility of re-assembly
0-34	unsatisfactory with mandatory re-study of the discipline	not enrolled with mandatory re-study of the discipline

6. LEARNING RESOURCES

6.1. Key resources

6.1.1. Textbooks / manuals

1. Bonanno A. (2023) *Portus Panhormi, siue Sermones quadragesimales, auctore Alexandro Bonanno Panhormita, ... Cum duobus indicibus, sermonum, & materiarum 1574 [Leather Bound] Leather Bound – Generic*, 2023. 514p.
