## About me

I am a highly motivated and goal-oriented candidate with an academic background in economics and law. I have experience in scientific research and possess a solid understanding of both the theoretical foundations and practical applications of my disciplines. My professional interests lie at the intersection of economics, legal studies, and social responsibility, enabling me to adopt a multidisciplinary and contemporary approach to teaching.

I approach both teaching and research with responsibility and dedication. My goal is not only to transmit knowledge, but also to foster critical thinking, professional ethics, and a commitment to lifelong learning among students. I strive to create a productive, supportive, and inspiring educational environment that helps students realize their full potential.
