Organizational and legal measures for the creation and liquidation of a business entity.</p>	2/0	2/0		8/8	normative: 1, 6, 7, 9, 10, 11, 13, 29, 41, 47, 48 main: 52, 53, 55, 61 additional: 82, 86, 88, 101
<p>Topic 2 Forecasting and planning of enterprise activities The concept of the process of planning and forecasting the development of enterprises. Development strategy (strategic planning) of the enterprise. Tactical planning of the enterprise's activities Business planning. Operational planning of the current activities of the enterprise.</p>	2/1	2/1		6/8	normative: 1, 13, 16, 32, 45, 46 main:54, 55, 60, 61 additional:82, 86, 93
<p>Topic 3 Forms of social organization of production The essence and forms of concentration of production. Advantages and disadvantages. Forms of combining production. Types and indicators of the level of cooperation. Principles of placement of production. Integration of production. Specialization of production.</p>	2/0	2/0		4/6	normative: 43, 44, 45 main:52, 56, 58, 62 additional:99, 100
<p>Topic 4 Concept and definition of the essence of the production and social infrastructure of an enterprise Definition and characteristics of the production structure of an enterprise. Concept, types and meaning of production infrastructure. Social infrastructure and social activities of an enterprise.</p>	2/0	2/0		4/6	normative: 1 main:54, 70, 71, 72, 73, 74 additional: 82, 86, 88

Topic 5 Organization of production at the enterprise Structure and principles of organization of the production process. Types of organization of the production process at the enterprise and their characteristics. Methods of organization of the production process at the enterprise.	2/0	2/0		4/6	normative: 1 main: 55, 56, 57 additional:88
Topic 6 Production capacity of the enterprise. Development and justification of the production program Definition and types of production capacity. The concept of a production program. Regulatory framework. Development of a production program in terms of physical and cost. Justification of the production program by resources and production capacities.	2/1	2/-		8/8	normative: 1, 6, 14, 18 main: 52, 58- 62, 71-73 additional: 82, 83, 86, 88
Topic 7 Resource potential of the enterprise. Capital The concept of resource potential and economic resources. Indicators of resource efficiency. Classification of resources as assets. The essence, types and functions of capital.	2/0	2/-		4/8	normative: 1, 2, 5, 9 main:53, 63, 64, 65, 74 additional: 77, 91, 96
Topic 8 Fixed assets of the enterprise The essence, structure and classification of fixed assets. Accounting and valuation of the value of fixed assets. Types of depreciation of fixed assets and methods of its elimination (reproduction). Depreciation. Indicators of the use of fixed assets. Ways to increase the efficiency of the use of fixed production assets.	2/2	2/2		8/8	normative:1, 2, 6, 17, 18, 19, 22, 23 main:52, 63, 64, 65, 66, 67, 73 additional: 77, 80, 88
Topic 9 Working capital of the enterprise. The concept and composition of working capital and working capital of the enterprise. Indicators of the use of working capital. Rationing of working capital of the enterprise. Sources of the formation of working capital. Factors for increasing the efficiency of the use of working capital.	2/1	2/2		2/8	normative:1, 17, 20, 21. main:52-60 additional: 91, 95, 96.
Topic 10 Human resources and employee motivation Enterprise personnel, their structure and movement indicators. Labor productivity. Indicators and methods for determining them. Indicators of working time use. Seasonality and labor balance. Staffing planning. Staff motivation.	2/2	2/2		8/10	normative: 3, 4, 15, 33, 38, 39, 42 main: 65-74 additional:95. 102
Topic 11 Production costs and product cost Enterprise costs: economic content, classification, management capabilities. Concept and types of cost. Calculating the cost of production. Features of calculation in agricultural enterprises. Technical and economic factors of cost reduction. Calculation of the impact of factors on reducing the cost of production. Cost planning. Cost assessment indicators.	2/2	2/2		8/10	normative: 1, 18, 20, 25 main:55, 58, 60, 71, 72, 73, 74 additional:75, 85, 102
Topic 12 Prices and pricing in market conditions Economic content, functions and types of prices. Pricing and pricing policy. Cost components of the price. Methods of calculating the price, and market factors of its formation.	2/1	2/-		4/6	normative:49 main:52, 53, 55, 58, 73 additional: 75, 81, 101
Topic 13 Financial results of the enterprise. Enterprise income. The essence and functions of profit, sources of formation. The mechanism of formation of gross profit, financial results from operating, investment and financial activities, net	2/2	2/2		4/8	normative: 1, 5, 6, 17, 25, 26. main: 61-65, 70-74 additional: 75, 76, 85, 87

profit. The mechanism of distribution and use of the net profit of the enterprise. Profit and profitability indicators. Factors affecting profitability. Concepts, indicators and criteria of the efficiency of the enterprise. Profitability planning.					
Topic 14 Investments. Innovative activities of the enterprise. Economic essence and classification of investment resources. Investments in fixed capital and their structure. Assessment of economic efficiency of production investments. Concept and types of innovative activities. Essence and main directions of scientific and technological progress in agriculture.	2/0	2/1		6/8	normative: 1, 10, 16, 30, 31, 35, 36, 43 main:52-74 additional:80, 89, 94, 97
Topic 15 Diagnostics of the financial condition of an enterprise. Bankruptcy and rehabilitation. Economic security and anti-crisis activities. The concept of financial condition. The role of its definition for the development of an enterprise. Business activity ratios. Profitability ratios. Capital structure ratios. Liquidity ratios. Bankruptcy and liquidation of an enterprise. Restructuring and rehabilitation. The concept of economic security and anti-crisis activities.	2/2	2/2		12/14	normative: 5, 9, 17, 27 main:68, 69, 70, 71, 72, 73, 74 additional:75, 87, 98
Total	30/14	30/14		90/122	

4. TEACHING AND LEARNING METHODS

POA	Teaching methods (work that will be carried out by the teacher during classroom lessons, consultations)	Teaching methods (what types of learning activities the student should perform independently)
POA 1. Know the economic foundations of the functioning of an enterprise in the system of market relations, the main directions and types of its activities, types of enterprises operating in Ukraine	Lecture-presentation, explanation, illustration using multimedia equipment, group discussions. Case method. Flipped classroom.	Working with lecture notes in the Moodle system. Multiple choice tests. Working with textbooks and other sources on the Internet, group discussion.
POA 2. Analyze and plan the volumes, results of activities and resources of the enterprise, know the basics of current, tactical and strategic planning	Lecture-presentation, explanation, illustration using multimedia equipment, group discussions. Case method. Flipped classroom..	Working with lecture notes in the Moodle system. Multiple choice tests. Working with textbooks and other sources on the Internet, group discussion.
POA3. Characterize and evaluate the internal and external environment of the enterprise, elements of production and social	Lecture-discussion, small group work, consultation. Case method.	Working with lecture notes in the Moodle system. Multiple choice tests. Working with textbooks and other sources on the Internet. Self-assessment. Flipped classroom,

POA	Teaching methods (work that will be carried out by the teacher during classroom lessons, consultations)	Teaching methods (what types of learning activities the student should perform independently)
infrastructure	Flipped classroom.	exchange of ideas.
POA 4. Analyze and plan the resources needed by the enterprise, develop a policy for the formation and use of labor, property and financial resources; have an idea of the criteria for optimizing the volume of material and raw materials needed by the enterprise; the product and pricing policy of the enterprise	Lecture-presentation, explanation, illustration using multimedia equipment, group discussions. Work in small groups, consultation.	Working with lecture notes in the Moodle system. Multiple choice tests. Working with textbooks and other sources on the Internet. Using analytical research methods, performing practical work using the methodological provisions of the Workbook.
POA 5. Analyze and plan income, current expenses and financial results from the operating, investment and financial activities of the enterprise	Lecture-discussion, small group work, consultation. Case method. Flipped classroom.	Working with lecture notes in the Moodle system. Multiple choice tests. Working with textbooks and other sources on the Internet. Self-assessment. Flipped classroom, exchange of ideas. Using analytical research methods, performing practical work using the methodological provisions of the Workbook.
POA 6. Determine the main performance indicators of the enterprise, the procedure for their formation and use	Lecture-presentation, explanation, illustration using multimedia equipment. Flipped classroom.	Working with lecture notes in the Moodle system. Multiple choice tests. Working with textbooks and other sources on the Internet, group discussion. Using analytical research methods, performing practical work using the methodological provisions of the Workbook. Performing an individual computational and analytical task (preparation, presentation, defense).
POA 7. Substantiate the effectiveness of investment and innovation projects	Lecture-presentation, explanation, illustration using multimedia equipment, group discussions.	Working with lecture notes in the Moodle system. Multiple choice tests. Working with textbooks and other sources on the Internet. Self-assessment. Flipped classroom, exchange of ideas. Using analytical research methods, performing practical work using the methodological provisions of the Workbook.
POA 8. Assess the financial and property status of the enterprise, its competitiveness, threats of bankruptcy, possibilities of rehabilitation	Lecture-presentation, explanation, illustration using multimedia equipment. Consultations.	Working with lecture notes in the Moodle system. Multiple choice tests. Working with textbooks and other sources on the Internet. Using analytical research methods, performing practical work using the methodological provisions of the Workbook. Performing an individual computational and analytical task (preparation, presentation,

POA	Teaching methods (work that will be carried out by the teacher during classroom lessons, consultations)	Teaching methods (what types of learning activities the student should perform independently)
		defense).
POA 9. Determine the effectiveness of the competitiveness of the enterprise and its products, have practical skills in assessing these parameters	Lecture-presentation, explanation, illustration using multimedia equipment. Flipped classroom.	Working with lecture notes in the Moodle system. Multiple choice tests. Working with textbooks and other sources on the Internet, group discussion. Self-assessment. Flipped classroom. Using analytical research methods, performing practical work using the methodological provisions of the Workbook. Performing an individual computational and analytical task (preparation, presentation, defense).

Note 1. Subject to changes in the learning process

5. EVALUATION BY EDUCATIONAL COMPONENT

5.1. Summative assessment

5.1.1. For the assessment of expected learning outcomes, there is

№	Methods of summative evaluation	Points	Weight in the total score	Date of assembly
1.	Theoretical knowledge section:	30	30	x
	- Oral interview / Testing on each topic (module testing)	15 (15×1 Points)	15	after studying the topic
	- Multiple choice tests	15 (7 б – I модуль; 8 б – II модуль)	15	7, 14 week
2.	Practical approach:	40	40	x
	- Practical tasks, case studies	30 (15×2 Points)	30	by 7 and by 14 week
	- Reports with presentations	10 (2×5 Points)	10	by 7 and by 17 week
Total				
3.	Final control (exam):	Final control (exam):	30	x
	Written answer to open questions and performance of practical calculation tasks. Interview	Written answer to open questions and performance of practical calculation tasks. Interview	30	on schedule according to the educational process schedule

5.1.2. Evaluation criteria

Component	Unsatisfactorily	Satisfactorily	Good	Excellent
Oral survey	<i>0 Points</i>		<i>0,5 Points</i>	<i>1,0 Points</i>
	the student does not possess theoretical material, lacks knowledge on this topic		the student demonstrates basic knowledge of individual provisions of the topic, analyzes and evaluates problematic issues reveals the content of the topic	the student presents the educational material in a reasoned manner, deeply and comprehensively reveals the content of the topic
Multiple Choice Test	<i>< 2 Points</i>	<i>3-4 Points</i>	<i>5-6 Points</i>	<i>7/8 Points</i>
	correct answers 25 %	correct answers 30-50 %	correct answers 55-90 %	correct answers more 90 %
Practical tasks	<i>do 3 Points</i> <i>(depending on the quantity completed tasks)</i>	<i>3-5 Points</i>	<i>6-9 Points</i>	<i>10 Points</i>
	not all practical tasks have been completed	all tasks are completed, the student demonstrates basic knowledge of individual provisions of the material, but the conclusions are not constructed logically and are not generalized	All practical tasks are completed, the student presents the educational material in a reasonable manner. Logically analyzes, synthesizes, generalizes and evaluates the initial analytical base.	all practical tasks are completed, the student independently forms and logically connects the results of analytical calculations and critically evaluates economic information in the conclusions. Prepares and defends cases on current situations of administrative and economic content
Reports with presentations	<i>do 3 Points</i>	<i>3 Points</i>	<i>4 Points</i>	<i>5 Points</i>
	the presentation of the research results does not reveal their content	presentation of theoretical material without the results of analytical research	presenting the results of theoretical and analytical research without one's own evaluation of the results obtained	presentation of the results of theoretical and analytical research with your own argumentation of the results obtained
Independent modular analytical and computational work	<i>0 Points</i>	<i>0-5 Points</i>	<i>6-9 Points</i>	<i>10 Points</i>
	the work was not performed, or was not performed according to the requirements and recommendations	The work was carried out on a specific information base, an analysis of the economic problem was carried out, and conclusions were drawn. The design of the work partially does not meet the requirements	analytical material was collected at a real enterprise, calculation tables were drawn up in accordance with the requirements, economic reserves were determined, conclusions were drawn	analytical material was collected at a real enterprise, calculation tables were drawn up in accordance with the requirements, economic reserves were determined, conclusions were drawn, and directions for increasing production efficiency (use of resources) were substantiated
Exam	<i>< 20 Points</i>	<i>20-24 Points</i>	<i>25-29 Points</i>	<i>30 Points</i>
	missing or incorrect answer (more than 25%) to theoretical questions. Practical task solved incorrectly. Interview partially passed	The answer to the theoretical questions is 50% correct, the practical task is completed logically and consistently, but with minor errors. The interview is	Answers to theoretical questions are 55-90% correct. All requirements for practical tasks are met. Interview passed	The answer to the theoretical questions is 95-100% correct, the practical tasks are completed with explanations. An interview was conducted with the identification of one's own vision of the economic

Component	Unsatisfactorily	Satisfactorily	Good	Excellent
		partially passed		problem.

5.2. Formative assessment:

To assess current progress in learning and understand areas for further improvement

№	Елементи формативного оцінювання	Дата
1	Surveys and oral comments from the teacher after studying each topic	every lesson
2	Self-assessment of current testing	7, 14 weeks
3	Discussion of the results of individual calculation work on the object of research	Week 15
4	Instructions from the teacher during practical classes	each practical lesson
5	Discussion and self-correction of independent work	every other week

5.3. Evaluation scale (summary) – generally accepted for the University:

Total points for all types of learning activities	ECTS score	National scale score to identify exam score
90 – 100	A	Excellent
82-89	B	Good
75-81	C	
69-74	D	
60-68	E	Satisfactorily
35-59	FX	the exam was not passed
0-34	F
