1. GENERAL INFORMATION ABOUT THE EDUCATIONAL COMPONENT

1.	Title	Global and national security			
2.	Faculty/Department	Economics and Management / Public Administration			
3.	Type (compulsory or optional)	Selective			
4.	Program(s) to which module is attached (to be filled in for compulsory types)	-			
5.	Module can be suggested for (to be filled in for optional types)	EP “Administrative management” D 3 Management			
6.	Semester and duration of module	2, 1-15 weeks			
7.	ECTS credits number	5			
8.	Total workload and time allotment	Directed study			Self-directed study
		Lectures	Practical	Labs	
		24	24	-	102
9.	Language of instruction	English			
10.	Module leader	Olena SLAVKOVA, Dr. Professor of Public Management and Administration Department			
11.	Module leader contact information	Email: olena.slavkova.snau@gmail.com SNAU, building of the Faculty of Economics and Management, aud. 310 e			
12.	Module description	The purpose of the course is to familiarize students with the main categories and key problems of the theory and practice of global and national security, its types and levels. The course is important because today in the world in different regions and almost on all continents there are conflicts of varying intensity and severity, up to military clashes. In addition, Ukraine itself is involved in the military conflict. The study of the academic discipline "Global and National Security" is completed with a final control in the form of a test.			
13.	Module aim	The purpose of the course is to provide theoretical training and specific knowledge of national security, to familiarize with the conceptual foundations of national security.			
14.	Module Dependencies (prerequisites, co-requisites, incompatible modules)	1. The educational component is based on the study of public administration, communications in public administration, strategic management and the formation of socio-economic development of the region. 2. The educational component is the basis for the disciplines: professional internship and pre-diploma practice, preparation of qualification work and certification			
15.	The policy of academic integrity	Copying - the task is not counted. Using prohibited means during the control means - the answer is not counted. Plagiarism - the task is not counted.			
17	Keywords	Security, global security, national security, national security system, national security council, non-state national security system, information security, economic security			

2. PROGRAM OF THE COURSE

Тема	Розподіл в межах загального бюджету часу, денна/заочна			Рекомендована література О – основна, Д - додаткова
	Аудиторна робота		Самостійна робота	
	Лк	П.з		
Topic 1. The concept and content of the general theory of global and national security 1. The essence and content of the theory of global and national security 2. Total	24	24	102	

3. TEACHING AND LEARNING METHODS

MLOs	Teaching methods (work to be carried out by the teacher during classes, consultations)	Teaching methods (what types of educational activities the student must perform independently)
MLOs 1: After studying the educational component, the student is expected to be able to understand the essence and content of the theory of global and national security, the object and subject, goals and objectives of global and national security, its essence and content.	Lecture, practical lesson, discussion	Processing of theoretical material
MLOs 2: After studying the educational component, the student is expected to know the system of national and global security, identify threats to national security, know the components of national security and their characteristics.	Lecture, practical lesson, discussion	Processing of theoretical material
MLOs 3: After studying the educational component, the student is expected to know the legislative and regulatory acts that regulate global and national security.	Lecture, practical lesson, discussion	Processing of theoretical material, performing calculation tasks
DRN4: After studying the educational component, the student is expected to be able to evaluate the system of national and global security management, the activities of the Security Council and international organizations.	Lecture, practical lesson, discussion	Processing of theoretical material, performing calculation tasks
MLOs 5: After studying the educational component, the student is expected to be able to determine the system of non-state provision of national and global security, its essence, objectives and functions.	Lecture, practical lesson, discussion	Processing of theoretical material, performing calculation tasks
MLOs 6: After studying the educational component, the student is expected to know the concept of information security of Ukraine, threats and state policy in the information sphere.	Lecture, practical lesson, discussion	Processing of theoretical material, performing calculation tasks
MLOs 7: After studying the educational component, the student is expected to know the main approaches to ensuring the economic security of Ukraine, its content, types of threats, components and the system for ensuring the economic security of Ukraine	Lecture, practical lesson, discussion	Processing of theoretical material, performing calculation tasks

4.ASSESSMENT

4.1. 1.To assess the expected learning outcomes provided

№	Methods of summative evaluation	Points / Weight in the overall score	Date of compilation
1.	Individual work (individual calculation task, presentation)	10/10%	Until the 7th week
2.	Individual work (individual calculation task, presentation)	10/10%	Up to 13 weeks
3	Testing	80/80%	During the semestr

4.1.2.Evaluation criteria

Component	Unsatisfactorily	Satisfactorily	Fine	Perfectly
Essay	<5 points	5-6	7-8	9-10
	<i>The task is not completed.</i>	<i>The execution method is correct, but there are significant errors.</i>	<i>The task is completed, but there are minor errors.</i>	<i>The task is completely completed. There are no errors</i>
Individual work	<5 points	5-6	7-8	9-10
	<i>The task is not completed.</i>	<i>The execution method is correct, but there are significant errors.</i>	<i>The task is completed, but there are minor errors.</i>	<i>The task is completely completed. There are no errors</i>

4.2. Summative assessment:

To assess current learning progress and understand areas for further improvement

№	Elements of formative assessment	Date
1	Testing in (Kahoot)	At the end of each topic
2	Filling in self-assessment information	At the end of the relevant topic
3	Verbal feedback from the teacher during the performance of an individual task	During the performance of an individual task

4.3. Assessment scale operating at the University:

The sum of pointsfor all types of educational activities	Score on a national scale	
	For exam, course project (work), practice, qualification work	for offset
90 - 100	perfectly	credited
82-89	fine	
75-81		
69-74	satisfactorily	
60-68		
35-59	unsatisfactory with the possibility of reassembly	not credited with the possibility of re-assembly
0-34	unsatisfactory with mandatory re-study of the discipline	not enrolled with mandatory re-study of the discipline

LEARNING RESOURCES

5.1. Key resources
